AmCham Company Tour to KFC Restaurant

On October 1, 2018, a company tour to KFC Kyrgyzstan was held within the framework of the AmCham Company Tour project for the members and partners of the American Chamber of Commerce. The tour participants were welcomed by Pavel Morozov, General Director of Food Dream LLC, and his team. Mr. Morozov spoke about the company, its goals and projects, as well as the details of the business part: for instance, that all the foodstuffs used in preparation of dishes are delivered from Russia three times a week. All the equipment, including furniture, has been brought from abroad. The participants had a unique chance to become acquainted with the technology and production equipment used at the restaurant, as well as to taste several types of chicken products. As of today, the KFC restaurant chain in Kyrgyzstan comprises KFC GUM “Chynar”, KFC Asia Mall, and KFC Orto-Sai. The company plans to expand its network next year.

Brief information and facts about KFC Kyrgyzstan:

The first KFC restaurant in Kyrgyzstan was opened in July 2017. KFC is a world famous fast-food restaurant chain specializing in chicken dishes. Every day, more than 15 million guests in 125 countries visit

more than 14,000 restaurants around the world. Working at KFC restaurants: the average age of employees is 23 years, i.e. members of Generation Y. To be effective, KFC makes every effort to make their needs met. The restaurant has an electronic Learning Zone training system implemented, based on the SABA platform. Each restaurant has a special room where employees can be trained. The system is cross-platform: you can learn using a phone when you are in public transportation; or at home on your home computer; or in between lectures at the university on a tablet. Each manager sees at what stage of training the employee is. The KFC restaurant chain implemented a modern interactive technology, which allows one to choose dishes from the menu on an individual terminal, bypassing the cashier's desk, and pay there electronically using his bank card. This came as an effective solution to the problem of long lines during the peak hours and to increasing the restaurant's serving capacity.

We would like to sincerely thank Pavel Morozov and his team for the warm welcome, as well as the tour participants for their active participation and good spirits.

AmCham Networking Night

On October 16, 2018, AmCham Networking Night was held at Hyatt Regency Bishkek. The Networking Event was hosted by the newly elected AmCham Board of Directors. Over 70 AmCham members and partners enjoyed live music from our favorite “Combo Band” and welcome drinks generously offered by the by the U.S. Embassy Bishkek in the Kyrgyz Republic. During the Networking Night, the newly elected AmCham Board of Directors introduced itself and shared their plans and goals for the next three years.

Let us remind you the newly elected and incumbent members of the Board of Directors for 2018-2021:

- **Bank of Asia;**

- **Coca-Cola Bishkek Bottlers;**
- **Demir Kyrgyz International Bank;**
- **FINCA Bank Kyrgyzstan;**
- **Hyatt Regency Bishkek;**
- **Kyrgyz Investment and Credit Bank (KICB);**
- **Sky Mobile (TM Beeline).**

As Nazira Beishenalieva, Chairwoman of AmCham Board of Directors, mentioned in her welcoming speech, each BOD member would meet individually with 8-10 AmCham member companies in order to get to know them better and to learn which AmCham activities could be enhanced. The guests had an excellent opportunity to network and participate in the lottery with interesting prizes kindly provided by our partners:

Coca-Cola Bishkek Bottlers, World Class Bishkek, Kulikovskiy Confectionary House,, Hyatt Regency Bishkek, Green Light ITS&C, Aviableti.kg, Navigator café and bar, , Rick's Diner, Ugolek café and bar, Zolden Beer, Yr Kese restaurant, Niko Georgian Restaurant,” Sierra KG, Nice2MeatU Steak House, Burger House Bishkek, Giovane Gentile Bishkek, Health Club Bishkek.

AmCham team is grateful to the Board of Directors for this incredible initiative and AmCham member companies for attending and actively participating in the Networking Night.

Fifth Kyrgyz-Czech Business Forum

The fifth Kyrgyz-Czech Business Forum was held on October 17, 2018, in Bishkek, whose organizers included the Embassy of the Czech Republic in Kazakhstan and part-time in Kyrgyzstan, Embassy of the Czech Republic in Astana, Honorary Consulate of the Czech Republic in the Republic of Kyrgyzstan, Ministry of Industry and Commerce of the Czech Republic, the Czech Export Bank, and the American Chamber of Commerce in the Kyrgyz Republic. The Forum was attended by over 90 representatives of the business communities of Kyrgyzstan and the Czech Republic.

Among the speakers were Ambassador Extraordinary and Plenipotentiary of the Czech Republic to the Republic of Kyrgyzstan, Ms. Eliška Zhigova; Head of Investment Policy Department of the Ministry of Economy, Kanat Abdrakhmanov; Director

of Foreign Economic Policy Department of the Ministry of Industry and Trade of the Czech Republic Mr. Martin Pospisil; Director of Investment Promotion and Protection Agency of the Kyrgyz Republic, Mr. Shumkarbek Adilbek uulu; Director of the American Chamber of Commerce in the Kyrgyz Republic, Ms. Zarina Chekirbaeva, and Honorary Consul of the Czech Republic in Kyrgyzstan, Mr. Marat Jaanbayev. 12 Czech companies representing such sectors as agriculture, construction, engineering, biogas production, nuclear, solar and hydropower and information technologies, took part in the Forum.

Aside from the B2B meetings, Czech Export Bank (ČEB) gave a presentation, where detailed information was provided on the possibilities of lending to business projects in Kyrgyzstan through the ČEB.

To date, ČEB has financed over 20 projects in Kyrgyzstan for an amount in excess of \$500,000.

The Kyrgyz-Czech Business Forum has become a unique platform that allows the business communities of the Kyrgyz Republic and the Czech Republic to explore new opportunities for cooperation. Over the past two years, Czech business started developing more actively in Kyrgyzstan and the number of large investment transactions is growing. The export structure is becoming more diverse, its coverage is expanding: from supplying regular equipment to complex IT solutions, small hydropower plants and many other complex engineering projects. Since the first Forum held in Bishkek in September 2015, it has become a platform for exchanging ideas, making deals and creating new partnerships.

AmCham Company Tour to Marina Medical Center

On November 6, 2018, within the framework of the “AmCham Company Tours” Project, AmCham organized a tour to the Medical Center for Reproductive Health Marina.

Marina clinic was founded in 1996 in the Republic of Korea and in March 2018 they opened a branch in Bishkek. Currently,

Marina clinic in Bishkek provides assisted reproductive technology services: IVF, ICSI, stimulation of ovulation, intrauterine insemination. The clinic also provides diagnostic services for thyroid and mammary gland diseases and diagnostics of female cancers. The clinic has its own biochemical laboratory and x-ray equipment. During the tour, the General Director and Chief Doctor Hyun Tae Shin made a detailed presentation on the Clinic’s services. Three participants of the tour had an opportunity to win free check-ups worth 20,000 KGS each.

We sincerely thank Doctor Hyun Tae Shin and his team for the warm welcome and the informative tour. To learn more, please visit www.medimarina.com

AmCham Company Tour to L’Occitane en Provence

On December 14, 2018, the American Chamber of Commerce in the Kyrgyz Republic conducted a Company Tour to the French cosmetics store L’Occitane en Provence. During the tour, guests were treated to refreshments, a presentation, a hand care procedure and professional advice on facial skin care.

The founder of L’Occitane en Provence in Kyrgyzstan, Abir Zhusupbekov, told about the history of the company. In 1976, a 23-year-old Olivier Bossant, who had

nothing but a distiller, a small truck and knowledge of plants, received rosemary essential oil, which he began selling in local Provence markets. Gradually, he expanded his production from oils to soaps and creams, drawing inspiration from the land on which he grew up to bring natural beauty into homes around the world.

The official representative office of L’Occitane en Provence in Kyrgyzstan opened in 2013. Worldwide, L’Occitane en Provence branches are located in 80 countries. All the

furniture and materials in the store were brought from France (the store’s design is part of the chain’s unified corporate style). Further, the Director of L’Occitane en Provence, Nadezhda Kuzminykh, led the guests to receive procedures for facial and hand care. Also during the tour, participants were given an exclusive 20% discount on premium perfumery and cosmetic products.

We sincerely thank Mr. Zhusupbekov, Ms. Kuzminykh and the L’Occitane en Provence team in Kyrgyzstan for their warm welcome.

AmCham Annual Gala Dinner for members and partners

December 6, 2018, an annual meeting of members and partners of the American Chamber of Commerce in the Kyrgyz Republic was held in the format of a Gala dinner.

The evening was opened with a video message by the Minister of Economy of the Kyrgyz Republic, Oleg M. Pankratov, in which he noted the importance of a joint partnership with the American Chamber of Commerce in the Kyrgyz Republic throughout the year in promoting initiatives to improve the business environment in Kyrgyzstan and the importance of the contribution of the business community in promoting country's economic growth. The US Ambassador to the Kyrgyz Republic, Mr. Donald Lu, highlighted the value of interaction in promoting business opportunities in the Kyrgyz Republic and thanked AmCham for the work done with the Government of the Kyrgyz Republic

and the international business community to develop a more dynamic economic environment. Chairwoman of the Board of Directors of AmCham, Nazira Beishenalieva, focused on the big plans of the Chamber's global partnership with partners around the world. Executive Director Zarina Chekirbaeva presented to the guests a special edition of AmCham's glossy business magazine "Business Insight Special Edition", as well as a video overview of the events and projects of the American Chamber in 2018.

The event was attended by over 180 guests, including heads of state bodies, heads of companies, heads of diplomatic missions, heads of business associations and special guests from neighboring countries. Among the distinguished guests was Ms. Anastasia Novikova, the Editor-In-Chief of Forbes Kazakhstan, which acted as the main media

partner of the event together with Akchabar financial portal.

AmCham sincerely thanks the PLATINUM PARTNER of the event:

Sky Mobile LLC (TM Beeline),

GOLD PARTNERS:

- Alfa Development Construction Company,
- Bai-Tushum Bank,
- Food Dream (TM KFC & Baskin Robbins),
- Kant TSP LLC,

We would like to thank our members and partners, as well as the Board of Directors of AmCham, for their invaluable support, trust and cooperation!

AmCham Russia held 6th Eurasian Economic Commission conference

The Executive Director of the American Chamber of Commerce in the Kyrgyz Republic, Zarina Chekirbaeva, was invited to speak at the 6th Eurasian Economic Commission conference on December 12, 2018, organized by the American Chamber of Commerce in Russia, in partnership with the U.S. - Russia Business Council (USRBC) and the Eurasian Economic Commission (EAEC).

The Chairman of the EAEC Board, Mr. Tigran Sarkisyan, spoke of the results of EAEC activities in 2018, and presented plans and priorities for the next year in his keynote speech. Representatives of the EAEC and the Federal Customs Service discussed the future of Eurasian integration, highlighted key areas of their activity, including issues of customs policy, technical regulation, and competition policy. Zarina Chekirbaeva spoke about

the benefits and challenges of the Kyrgyz Republic's presence in the EAEU from the perspective of the private sector, highlighting issues related to customs, labor migration, as well as growth and decline in various sectors. The event also featured presentations from multinational companies on their success stories of operation within the Eurasian market.

The panel sessions were co-moderated by AmCham President & CEO Alexis Rodzianko and USRBC President and CEO Daniel Russell. The following experts spoke in the course of two panel discussions: Karine Minasyan (Member of the Board – Minister in charge of Internal Markets, Information Support, Information & Communication Technologies, EAEC), Ruslan Davydov (1st Deputy Head of the Federal Customs Service

RF), Marina Iskoskova (Head of Customs Legislation Branch, Department of Customs Legislation and Law Enforcement Practice, EAEC), Karen Garaseferyan (Board Member, AmCham Armenia), Zarina Chekirbaeva (Executive Director, AmCham Kyrgyz Republic), Oksana Plashkova (Deputy Head of Technical Regulation and Accreditation Department, EAEC), Dmitry Rozhdestvenskiy (Head of the Division of Coordination of works in the field of circulation of medicines and medical products, Technical Regulation and Accreditation Department, EAEC), Vadim Kukava, Executive Director, Association of Pharmaceutical Companies «Innovative Pharma» (InPharma), Frances Devlin (Director, Regional Public Affairs, Pfizer), and Vladimir Shipkov (Executive Director, Association of International Pharmaceutical Manufacturers (AIPM)).

Signing a Memorandum with American Chamber of Commerce of Russia

On December 12, 2018, the American Chamber of Commerce in the Kyrgyz Republic and the American Chamber of Commerce in Russia signed a Memorandum of Cooperation. Both parties will facilitate the strengthening of trade and economic relations, development of effective communication between political, business and regional circles and expert communities of the United States, Russia and the Kyrgyz Republic.

The American Chamber of Commerce in Russia was established in 1994. As of today, approximately 500 companies and organizations are members of AmCham Russia.

New campaign from Bai Tushum Bank – hurry up to take part!

Do you hold Elcard or Visa cards of Bai Tushum Bank but prefer to pay in cash the old-fashioned way? You'd better lay the old habit aside quickly, and instead win a ticket to the Asian Soccer Cup 2019 and other useful gifts - excellent smartphones and powerbanks Xiaomi Mi.

Bai-Tushum Bank became the general sponsor of Kyrgyzstan's national soccer team within the framework of the upcoming Asian Cup 2019, which will take place in the United Arab Emirates. It was for this reason that it was decided to give the Kyrgyz citizens an opportunity to visit UAE and root for the home team.

All you need to participate is to always use your Elcard or Visa card when paying for purchases or services at any store, supermarket, car dealer, gas station and any other retail outlet in Kyrgyzstan.

There is more to come! Only until December 15, the Bank's clients have a unique chance to receive 1% cashback from the amount of every purchase.

Make shopping easier and life brighter!

Coca-Cola Foundation has disbursed \$1 billion over the last three decades

The Foundation has rendered financial support at the amount of 1.1 billion USD to the charity projects and has reached more than 655 million people worldwide over the last 30-plus years in more than 200 countries, including Kyrgyzstan.

Coca-Cola Foundation finances social projects with a focus on protecting the environment, empowering women, education, and enhancing communities.

For over six years, Coca-Cola Foundation has been cooperating with different international organizations in Kyrgyzstan, including UNDP, Mercy Corps and Aga Khan Foundation, with regard to implementing socially significant projects. With the Foundation's financial support water supply systems were installed in the remote mountainous areas, and people received access to clean water. Projects on rehabilitation of irrigation channels have dramatically increased the amount of water available for irrigation, which boosted yields of local farmers. Youth empowerment and educational projects were implemented as well.

Bank of Asia received a license and started its activities 20 years ago

Today, the Bank has 33 offices throughout the country and its own chain of ATMs, payment and POS terminals. The success of the Bank is, above all, due to both employees and clients, who constantly help us implement new banking services, as well as improve the quality of service.

The trust of the clients is invaluable and feedback/assistance are important in improving Bank's services to reach new levels of cooperation.

Bank of Asia thanks for the support over the years.

Digithon 2018: Beeline held the third digital marathon in Kyrgyzstan

For the duration of two days, the company's employees competed in creating innovative applications and services aimed at creating a digital eco-environment in the country.

"Beeline is transforming from a telecoms operator into a modern digital company, conquering previously uncharacteristic markets, occupying new niches. Of course, we need progressive technological solutions capable of solving new business super-tasks," says Tilek Akhmatov, company's Director for Digital Development.

The operator has already launched Balance.kg, Leti.kg, Chak Chak mobile applications on the market, which facilitate communication and save consumers time and money. A vast wealth of knowledge of the needs and conditions of the market, in addition to access to the best international practices and innovations, allows Beeline Kyrgyzstan not only to improve their own business and improve the professional level of their staff, but also to develop the country's economy.

The winning team, which proposed the idea to install self-service check-out terminals in supermarkets, with the possibility for the buyers to pay for purchases independently through balance.kg app, will present the project at the global Digithon in Amsterdam.

More about Baisal Electric Company business in Kyrgyzstan

For the first time in Kyrgyzstan, Baisal Electric company was able to produce metallurgical iron oxide powder in sizes measured in nanometers and micrometers using the formula $(Fe_2O_3 - Fe_3O_4)$.

This type of powder is used in various sectors of industry, such as production of various agricultural fertilizers, special paints, special type of concrete in the road and construction sectors, production

of metal parts in the automobile industry, preparation of pet food, etc.

The company is willing to cooperate with manufacturing and industrial companies that are involved in the above mentioned activities.

More about KANT TSP LLC business

Kant TSP plant, established in 1967, is currently the sole enterprise on the territory of the Kyrgyz Republic, producing high quality fiber-cement products confirmed by the State Certificates of Conformity per each type of product. Since 2015, the plant has been implementing extensive upgrade of its production facilities and extended the range of the manufactured goods. Entirely new lines of manufacturing of fiber-cement sheets and sand-cement tile have been launched.

Some of the new types of manufactured products include fiber-cement sheets. They represent modern composition material, manufactured from natural fibers and binding components (cement). The fibers ensure stiffness of the material, reduce longitudinal expansion in case of temperature fluctuations, and fulfill the function of a reinforcing base. Cement provides durability and humidity resistance of sheets.

In October 2018, a unique press for the production of already pressed fiber-cement sheets was installed. The uniqueness of this press is in its power capacity - it can press products with the power equal to 100 thousand tons. Such kind of a press is one of a kind in Central Asia. This innovation has improved the physical and mechanical performance of the products and broadened the field of application of such sheets. Now the pressed fiber-cement sheets can be used for facing multistory apartment buildings. This material surpasses its analogs that are used for facing houses, on all indicators, namely it is non-flammable, not affected by corrosion, water-resistant, freeze-resistant, and light in weight.

KPMG in Kyrgyzstan sponsored chess championship for adults and children with disabilities

This year, KPMG Kyrgyzstan has for the third time sponsored a chess championship of the Kyrgyz Republic for adults and children with disabilities, as part of its corporate citizenship program. The championship was organized by the Chess Federation of the Kyrgyz Republic in partnership with the Ministry of Labor. This year, the event was held on November 26-29 in Bishkek, and brought together around 150 people. The participants of the event were welcomed by Aida Asyrandieva, Head of KPMG Office in Bishkek.

“KPMG has been cooperating with the Chess Federation of the Kyrgyz Republic during the last four years by organizing chess championships for the true lovers of this ancient and wise game among the representatives of the regional business community of this wise ancient game. By supporting the chess championship for people with disabilities, our company is striving to make its contribution to the creation of equal conditions and opportunities for an all-round development of talented people. We believe that eagerness of the business community to pool resources in support and promotion of chess contributes to further popularization of this intellectual game” – commented Aida Asyrandieva.

Crown Agents presented innovative solutions for economic development in Central Asia within the 8th USAID Central Asian Trade Forum, October 18, 2018 (Tashkent)

Crown Agents leading international experts presented the results of “Products traceability technologies in agriculture and trade in Central Asia” Study during a discussion panel, as an example of solutions called to improve the competitiveness of Central Asia.

The study showed that the capacity of the agricultural sector - one of the most important development areas of Central Asia - remains not fully realized. Unfolding an integrated production and supply chain and introduction of a modern traceability system will give impetus to its development.

Traceability technology is innovative control over the supply chains at all stages for all the parties involved. Implementation of the system will ensure high quality products, economic development and increased profitability.

“In modern trade, every element can be turned into a competitive advantage. We at Crown Agents are confident that introduction of innovations will help Central Asia strengthen its positions in the international markets and attract investments,” – says Larisa Kokareva, Central Asia Regional Manager, Crown Agents.

Bishkek International School is NEASC accredited

Following a lengthy accreditation process with self-study review of all aspects of the school, staff training and accreditation visits, the New England Association of Schools and Colleges (NEASC) Commission on International Education, awarded BIS ‘Accredited’ status on 20 November 2018.

NEASC accreditation is very important to us in terms of international school standards and recognition. It also means that our High School Diploma for graduating students is now accredited, in addition to the accredited qualifications we offer upon the completion of the International Baccalaureate Diploma, Cambridge IGCSEs, and curriculum of the Kyrgyz Republic Ministry of Education.
